Thank you for considering Red Curry Catering. Included are some sample menus. I am also glad to work with you on custom menus.

I take care of everything so that you and your guests can enjoy your party or gathering. Shopping and prep work will be completed prior to arriving at your location. Food will be cooked and served fresh on site.

I do need a few things from you: Your kitchen needs to be clean and serving dishes and place settings should be out and ready. Also be prepared with a hearty appetite.

About me: I have taught University School of Nashville Evening Classes for ten years and also in-home instruction. More recently, I have branched into being a personal chef, realizing that it is another way for people to enjoy my food. In sharing my love of Thai cuisine, I hope to foster a love for the cooking of my homeland.
